

BODY SHIELD

Body Shield contains organic fulvic acid, which is loaded with Fulvates and trace minerals. The formula is also fortified with Limu Moui and kelp. Researchers believe that organic fulvic acid offers massive support for the body; they theorize that it promotes the healthy function of the body's own natural processes that support detoxification, cellular cleansing, and nutrient uptake.* Scientists postulate that organic fulvic acid can, like a molecular train, transport nutrients in and take heavy metals out.* The Fulvates in Body Shield are potent antioxidant super-scavengers.* In addition, the seaweed extracts support healthy thyroid and immune function!*

The following are scientific reports of the benefits of Fulvates (which are in **Body Shield**, enhanced with Limu Moui):

- Increased energy
- Alleviated anemia
- Chelated body toxins
- Reduced high blood pressure
- Powerful natural electrolyte
- Restored electrochemical balance
- Stimulated body enzyme systems
- Rebuilt immune system
- Killed athlete's foot pathogens
- Increased Potencies of supplements
- Magnified effects of herbal teas and tinctures
- Chelated all monovalent and divalent metals
- Healed burns with minimum pain or scarring
- Eliminated discoloration due to skin bruises
- Wide spectrum anti-microbial and fungicide
- Treated rashes and skin irritations
- Healed insect bites and spider bites
- Healed cuts and abrasions

Tom Mower on Body Shield:

Body Shield chelates (forms a ring around) toxic heavy metals and removes them by making an ionic complex so small they could be excreted in saliva too as well as eliminated through skin and your excretion system. So taste a toxic metal. It is bound and being discharged. You might not like the taste but inside the cell it is more than distasteful it is very destructive. So spit it out or let it go through the digestive system and out. Either way kiss it good by and be glad you can do something about this insidious toxin with Body Shield.

Testimonial from Angelina Kovac:

Recently I was diagnosed with Pancreatic cancer (Adenocarcinoma) which was found by accident during a CT scan for bowel inflammation issue. Fortunately, it was found early as it was in the tail of the Pancreas and no symptoms to indicate its growth. I must say I wasn't freaked out as I always had a plan of action because of my belief in Sisel's products. I had surgery to remove the cancerous section, as well as my spleen. I am pleased to say that the surgeon informed me that they got it ALL.... I must say it was an unpleasant post-operative time with much pain and stress on my system. But I am supported by Sisel's amazing products to help me recover and beat this particular health issue. Here is my daily routine of Sisel products: TSX x1, FuCoyDan x3, Body Shield x2, Eternity x1, SpectraMaxx x1, Supra Omega Plus x6, Encompass x 6, Balanced D x6, Brain Vitality x2 for Turmeric (180x more Bioavailable than normal Turmeric)

I am very grateful to Tom Mower and his amazing products that help our bodies deal with compromised immune systems due to all the toxic chemicals and pathogens breaking down our bodies. I am convinced that i will be a survivor and regain good health. Thank you Tom!

Question (to Tom Mower):
Is it possible for you to comment on the impact of this product for the thyroid?

Response:
Sure. It positively effects the thyroid because it contains organic iodine that is chelated ionically with organic fulvic acid. This increases delivery and energy at the cellular level. It will also exchange electrons with radiation that may accumulate in the thyroid thus neutralizing it demand that damages cells.

Anonymous ~ Summer is here and many people suffer from poison ivy and poison oak rashes.

Many have amazing testimonies where they're noticing a huge decrease in poison ivy rashes after taking BODY SHIELD!

Up to 4 pills a day throughout the day when working with Poison Ivy, left no reactions on the skin.
